Tonia -

We'll assign you a mission/task and an accounting code for your TA, before you travel. Before you deploy, you need to come by the REOC in the 8th floor to provide us with your contact info and give you contact numbers, where to report, and other pertinent information.

Thanks

Kendra:

Prescreening is complete with a "cleared for deployment". What is my next step. I am hoping to fly Wednesday.

Thank you as always!!

There has been a miscommunication on this issue. As my previous emails to Susan Webster and Michael Torres indicated, Tonia does NOT require medical monitoring to deploy in support of the Gold King Mine spill. She does, however, need to have a pre-screening exam performed by the 12th Floor FOH Clinic. This exam will take approximately 30 minutes to complete. I've provided the screening exam form to Susan Webster and Michael Torres and asked them to get with Tonia and the other employees in the same situation. Once the pre-screening exam is complete, she will be cleared by the H&S Office to deploy.

Again, medical surveillance is NOT required; only a pre-screening exam.

Tonia -

As per Chris Petersen, you cannot deploy to New Mexico at this time as you need to be under medical monitoring for the activities to be performed while on this travel.

Chris is working with his group to assist us in getting you the proper monitoring or attaining the best justification for why you do not need it.

I will update you as soon as I know anything further.
